

Special Session on

Renewable Energy Applications in Rural Areas

Chairmen: Dr. Mohammed Albadi, Sultan Qaboos University (Oman)

mbadi@squ.edu.om

Prof. Abbas Fardoun, United Arab Emirates University, (UAE)

afardoun@uaeu.ac.ae

SS01

General Chairs:
Dr. Mohamed Becherif
General Co-chairs:
Pr. Daniel Hissel
Pr. Abbas Fardoun
Honorary Chairs:
Pr. Pascal Brochet
Program Chair:
Pr. Abdel Aitouche
Organizing Chair:
Dr. Haitham S. Ramadan
Exhibitions:
Dr. Samir Jemei
Submission/Registration:
Dr. Youcef Ait Amirat
Social Activities:
Pr. M. Hilaret

ICREGA'16 aims at gathering scientists and engineers from academia and industry to discuss the generation and applications in the broad field of Renewable Energy (RE) applications.

In rural remote areas and islands, energy generated from fossil fuels can be difficult and expensive. Producing RE locally can offer a viable alternative to many applications. Rural communities can utilize the locally available RE resources for a wide range of applications to improve the standard of living in these communities.

This special session is dedicated to RE applications in rural areas. Topics of interest include, but are not limited to:

- ☑ Electricity Generation in isolated networks using RE resources.
- ☑ RE generation for remote oil fields.
- ☑ Water pumping and storage applications.
- ☑ Water desalination and treatment using RE for rural communities.
- ☑ Crops drying and food processing using renewable resources.
- ☑ Powering Greenhouses using RE.
- ☑ Biodigesters applications.

Keywords: Renewable Energy, electricity generation, water pumping, water desalination, greenhouses, biodigesters.

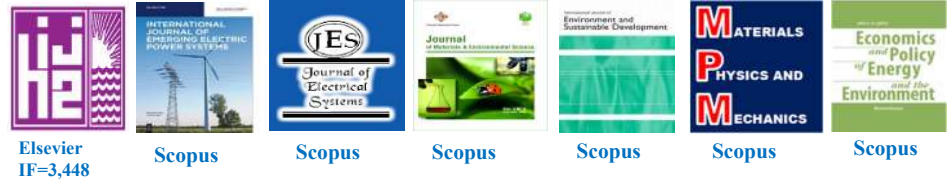

For submission: send directly to the special session chairmen (mbadi@squ.edu.om) and (afardoun@uaeu.ac.ae) in addition to the online submission available on:

<http://icrega16.utbm.fr/paper-submission/>

Accepted papers that will be presented in the conference will be published in a scopus-indexed journal.
